## Our Credentials.

Share our passion. Just a few success stories and snapshots into what makes the island venue great.

“Jersey is an ideal place to get the most out of people’s day. The facilities are excellent, in my opinion the food is fantastic; people here know how to organise successful events.”

### 01. Breca Swimrun.

Worldclass swim races in wild places. Test of strength is open water and on trails.

We were looking for a location to host the second event of our global swimrun series. It was a critical decision for the business. We needed somewhere that offered a commensurate level of quality, challenge and adventure.

We found that place in Jersey. There are excellent transport links from London and from the continent. There is a wide range of accommodation, outstanding restaurants and well-organised transport around the island. The Events Jersey team were instrumental in helping us establish the event and in supporting its continued success.

The Breca Jersey swimrun is now an established annual race, attracting top athletes from the UK and abroad. It’s a world-class destination, and we look forward to growing the event in the years to come.

## 02. Super League Triathlon.

A game changing triathlon series featuring Olympic champions racing in fast, fan-friendly locations. Inaugural event 2017. Now secured for the next five years into 2022.

On planning the Super League Triathlon event in Jersey, the priority was to deliver the best experienced based sports event to ever come to the Island.

We had confidence in the local team on the ground and the support and drive of the local community was above and beyond anything anticipated.

We believe Jersey is a remarkable events destination. We have delivered more than 30 events globally and Jersey as a destination is most certainly one of the best.

## 03. Artificial Intelligence Retreat.

Jersey's well-established finance industry and growing digital sector came together for a successful Artificial Intelligence Retreat in the island.

As Jersey is easily accessible from the UK and Europe and with an established reputation as an international finance centre, it was a natural choice for the event.

Modern luxury accommodation was provided for the invitation only gathering of internationally renowned experts.

Jersey's unique ability to be able to provide a transition from conference room to beach in just a few minutes, provided the right mix of business and pleasure.
